

# LARGE SIZE DISPLAYS

## Numerical 7-SEGMENT LED Type 8

### For INDOOR applications IP40

- DL1** - 1 or 2 rows, 100mm height
- DL11** - 1 row, 100mm height, unit field
- DL12** - 2 rows, 100mm height, unit field
- DL13** - 3 rows, 100mm height, unit field
- DL21** - 1 row, 100mm height, unit field + three colours!!!
- DLZ** - Digital clock combined with temperature and humidity, 100mm height

DL1

DL21

With changing colours!!

DLZ Time, date, temp., humidity

DL12

## Numerical LED Type 8

### For OUTDOOR applications IP65 !

- DN1** - 2...5 digits, 100mm height,
- DN2** - 2...5 digits, 200mm height,
- DN3** - 2...5 digits, 300mm height,
- DZ2** - clock, 200mm height, with DCF receiver
- DZ3** - clock, 300mm height, with DCF receiver

DN1

Automatic brightness control !!!

DN2

DZ2

## ALPHANUMERICAL AND GRAPHICAL TYPE

### IP65 ! DAZ1

### For OUTDOOR applications

**DAZ1** - graphical 128x32 pixels, 320mm height

DA1

### For INDOOR applications IP40

- DA1 01** - text, 2 rows x 20 chars, 60mm height
- DA1 02** - text, 3 rows x 24 chars, 60mm height
- DA1 03** - graphical 16x120 points
- DA1 04** - graphical 32x144 points

ALL DISPLAYS have input RS485 Modbus and they can cooperate with different devices which can measure:

Transmission of the data to and from the display can be realized by additional devices:

(20mA, 10V, PT100) - converter SM1

- transducer P18

- converter PD8

- converter SM7

- converter and counter SM3

(1phase) - transducer P12P

- converter PD10

# APPLICATIONS

Measurement and visualization of the flow on pipeline

Measurement and visualization of the production flow

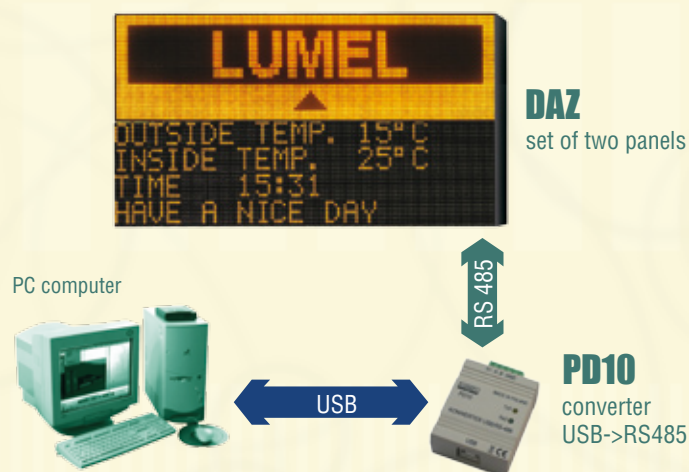

Measurement and visualization of temperature from Pt100 sensor or from standard analogue signals

Measurement and visualization of the active power in 1-phase or 3-phase symmetrically loaded network

Measurement and visualization of the temperature and humidity with P18 transducer and transmission measured data via SM7 radio modules

Programming of the DAZ displays via PD10 USB converter into RS485 Modbus.

## COME AND SEE US!

**We also offer:** analog meters, digital meters, large-size displays, power network parameter analysers, measuring transducers, industrial process controllers, recorders, power controllers, solid state relays, elements of integration systems, synchronizing units, electronic watt-hour meters, shunts.
